

## English

We will be studying *The Comet* and *Town Is by the Sea* (please don't read them yet!). We will use them as a stimulus for our writing, including poetry, diaries, narratives, pen portraits, and free writing.

## Maths

We will be revisiting fractions before focusing on time and money.

## Music

As in previous terms, we are very fortunate to be having weekly violin lessons.

## French

Our French lessons this term will revise food vocabulary and learn the days of the week.

## Geography

In Geography, we will be learning about fossil fuels and other forms of energy production. We will learn about some of the human issues surrounding these and their physical location and impact.

## RE

Our Big Question this term is 'Does Jesus have authority for everyone?'

## Computing

We will become familiar with the terms 'text' and 'images' and understand that they can be used to communicate messages. We will use desktop publishing software and consider careful choices of font size, colour and type to edit and improve premade documents.

# Energy

## Science

This term the children will learn what each part of a plant does and learn about different methods of seed dispersal.

## PE

In our outdoor PE lessons we will be learning and practising the skills relating to tennis. In our indoor PE lessons, we will develop and apply our reaction and response and floor work balance through focused skill development sessions, healthy competition, cooperative games and Personal Best challenges.

## Art & Design

We will have an art focus this term. We will be developing our skills with printing and collage.

## PSHCE

We will continue to have a weekly circle time. These will focus on how to recognise our own feelings and how these are communicated through our behaviour.

# Reading list

During teacher consultations, several of you mentioned that a reading list would be useful. Please have a look with your child to see if you can encourage them with a quality book. Here is a mix of books linked to our topic & the books we're reading in class, plus some other fun ones.

# **Energy vocabulary**

**Energy**

**Wind energy**

**Fracking**

**Coal**

**Tidal energy**

**Domestic**

**Oil**

**Hydro-electric  
energy**

**Fission**

**Natural gas**

**Fusion**

**Nuclear energy**

**Biomass energy**

**Solar energy**

**Geothermal  
energy**
